

We're constantly working to improve your
MyGate experience.
Here's what has changed...

Accounting Features

- **Simplify and speed up your reconciliations**
 - All online payments through MyGate will now get auto reconciled.
 - Admins will have to verify the auto populated dates to complete the reconciliation process.
 - Path: *Accounts >> Bank Reconciliation >> Verify*

- **Keep a track of your bills with bill plan reporting & uploads**
 - The society admins can download reports and upload dues based on the bill plans
 - Path for uploading based on bill plans: *Financial reports >> uploads and downloads >> Due receipts*
 - Path for reporting based on bill plans: *Financial Reports >> Dues.*

Accounting Features

- **Say hello to smart Tally Integration**
 - Invoicing and Receipts from MyGate can now be imported to Tally for seamless auditing
- **Add invoicing period on your invoices**
 - Now add invoicing period and duration to the invoices.
 - Path: *Accounts >> Member invoicing >> Create invoicing template >> Billing month & Billing Duration*
- **Go digital with point of sales system**
 - Payments can be collected through POS machines for prepaid meters and security deposit
 - Point of Sales (POS) has been added as a method for collection in both payment intimation and manual receipts for prepaid meters and security deposits.

Accounting Features

- **Now easily delete journal voucher**
 - Journal vouchers can now be deleted and the JV series can be reset.
 - All canceled JVs can be reviewed under "canceled Vouchers"
 - Path: *Accounts >> Vouchers >> Canceled Vouchers.*

- **Mumbai Fine System - Ability to start fine from Invoice date and slab-wise compatibility**
 - Mumbai fine system is now compatible for slab based fine rule.
 - Also the admin can now be decide on if the fine needs to be calculated from the invoice date.
 - Path: *Accounts >> Member invoicing >> Generate invoice >> Fine starting.*

Non-accounting Features

- **Enjoy formatting tools on group email and meetings**
 - Attachments of videos, rich text formatting & bullets/numbered lists in meeting minutes & group emails
- **Add terms and conditions for each amenity**
 - Now add T&C and agreements to each amenity that residents will need to agree to before booking.
 - Path: *Amenities >> Amenity list >> Edit >> Enable Terms and conditions*
- **Custom make your amenities** Amenity can now be created from the admin side
 - Path: *Amenities >> Amenity list >> Add Amenity*

Non-accounting Features

- **Tag your companions for using amenities**
 - Residents can now tag their companions for using the amenity.
 - Better accountability and clarity for the admins on the people using an amenity.
 - Path: *Amenities >> Amenity list >> Edit a specific amenity >> Residents should register companions*

- **Charge different rates for residents using amenities**
 - Societies can charge differential rates for tenants and owners for using the amenities
 - Societies can use this feature for better revenue generation.
 - Path: *Amenities >> Amenity list >> Edit >> Check the "Paid" check box >> Extra charges(Extra amount charged to Tenants)*

Why our users love us

Kudos to the **MyGate team** - love the thoughtful, useful and incremental product improvements they make regularly - it's become a must-have app for us

Lakshmiathy Bhat

Bengaluru

MyGate's team has worked personally with us to help resolve issues multiple times. It is the best app for Community Management.

Natraj Solai
Hyderabad

Due to the ERP tool we are able to track the residents payments effectively. The UI interface is very easy and simplified.
